EDUCATION

National Cheng Kung University

Bachelor of Computer Science and Information Engineering

Tainan , TW

Expected September 2026

- **National Collegiate Programming Contest** : Merit Award
- **Programming Coursework** : Algorithms & Data Structures , Computer Arch , System Administration

EXPERIENCE

Part-time SWE/DevOps

SimpleWay Insurance Service

October 2022 – Present

Remote

- Increase visibility by 20% by adding article searching, multi-file uploading, and a backstage WYSIWYG editor to the previous system structure.
- Using Git to collaborate with another developer on different branches.
- Leveraged knowledge to add new features to the existing framework and collaborate effectively with other developers.

COMMUNITY & LEADERSHIP

Director/DSA Lecturer

Wuling Computer Science Club

July 2020 – July 2021

Wuling Senior High School

- Teaching C++ syntax, data structures, and algorithms to a club of 50 members.
- Increasing course engagement by 30% by leading committee members to organize diverse lectures .

Lecturer

NCKU Google Developer Student Clubs Flutter Group

September 2022 – Present

NCKU GDSC

- Teaching Dart syntax and the Flutter framework structure in GDSC .
- Leading members to complete collaboration side projects.

PROJECTS

HSPC Registration System | *Python3, Flask, SQLite, p5.js, Docker, Git*

February 2023

- A full-stack web app was built for users to register for the NCKU High School Programming Contest, with a backstage for administrators to confirm teams, make announcements, and respond to questions.
- Built app in MVC structure using flask and SQLAlchemy ORM to increase its maintainability and extendability.

Access Control System | *NodeMCU, C++, Google App Script*

May 2022

- An IoT system prototype that can update gate access records to the cloud and change passwords from the backstage.
- Learn network administration by setting up reserved IP addresses, configuring port forwarding, configuring LAN DHCP settings, and configuring WAN DNS settings.

WLCSC site | *React, RWD*

July 2022

- I renewed the Wuling Computer Science Club official site with the React.js framework and a responsive design.

TECHNICAL SKILLS

Languages: C, C++, Python3, PHP, JS, HTML, CSS,

Frameworks: Flask, React.js, Express.js, p5.js

Databases: MySQL, SQLite, MongoDB

Developer Tools: Git, Docker, Linux, Vim
